WHAT HENRY THINKS ABOUT IT

Really I hesitate to tell you all I think, or you might say I am just stubborn and pig-headed and always hammering on the same idea. But maybe that's a good idea anyway. You know pretty well already how I feel about things in general, and no use disguising it.

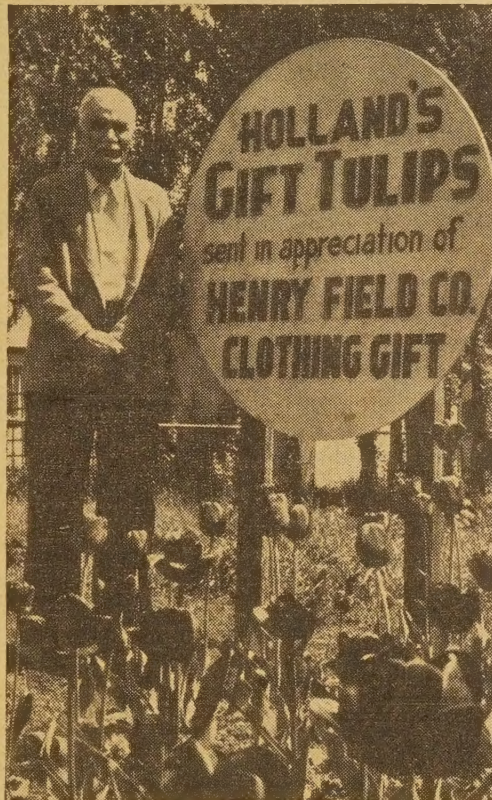

I still believe that this great country of ours is in pretty much of a mess, and not getting out of it very fast. Looks sometimes like we're getting in deeper all the time. Frankly, I don't like the idea of all our good food and machinery and trucks and tractors and fertilizers and box cars and everything else that we have worked for so hard and may need so badly ourselves going overseas by the billions. Maybe it's all right, but I'm scared of it. But maybe I'm just old-fashioned.

And I don't like this idea of plunging headfirst into another war either. There wouldn't be much left for anybody after another war. But maybe it will all straighten itself out. I hope so. And meanwhile there's one thing we can be sure of. The only thing that will save us and bring us back to prosperity and security is a policy of peace and decency and hard work and self help. Feed yourself. Hoe your own row. Don't wait for someone else to feed you. Clean up your own messes. Help your neighbor.

As my good old father used to say, "Just sit tight and keep sweet and keep at work, and it'll come out all right." And it always did. Now this is just one old man's opinion. I am probably old-fashioned and a bit stubborn, but I have always practiced what I preach and it worked.

Anyway, if you have a garden and flowers and fruit and plenty of good stuff to eat and pull your share of the load, it will help a lot. It always has for us and it will work the same way for you.

P. S.—Well, enough preaching. What I really started out to tell you was that fall of the year is a wonderful

A Gift of Tulips From Grateful Hollanders

During the war we seedhouse folks sent a gift of clothing and shoes to the Holland folks who grow Tulip bulbs for us. They surprised us by sending a return gift last fall of 100 varieties of choice Tulips for our garden. Here they are, blooming this past spring.

It would take too long to talk to you about all the many flowers we have, but you can go through this catalog and see for yourself. Get plenty of them. H. F.

P. P. S.—We are all well and happy and busy as usual. By the time you read this, Mrs. Field and myself will be at our Ozark home near Centerville, Missouri, enjoying our garden and fruit and flowers there—and working as hard as ever setting out more. H. F.

time to plant fruit and flowers. More and more, every year, our fall sales are growing. More and more people are finding that practically all hardy flowers and fruits do better and bloom and bear quicker and more surely if set in the fall. No question about it. For instance, I started a new rose garden last fall, set about half of them in October and the rest this spring. All lived and all are growing nicely—but the ones set last fall are so much bigger and better and so much more bloom that it's really startling.

And all kinds of Perennials—and Lilies—and hardy Shrubs—and Apple trees—and small fruit—and shade trees—the same story all the way through. Fall planting is best.

And the so-called "Dutch Bulbs"—Tulips and Hyacinths—and Daffodils—and Crocus, and all those beautiful spring-blooming flowers. They must be set in the fall. You know that, I think, but some of you forget it. We have millions of these bulbs coming direct from Holland and want to share their beauty and joy with you. We have top quality and have priced them right. Look over the list.

And the Iris and Peonies and Lilies—while they can be set in the spring, are much better set in the fall. Much better. Try it.

And my Ozark wild flowers, my personal hobby, should be set in the fall by all means. Look them over. You will find a lot of old friends there.

Six Little Gardeners

"Dear Henry: This picture of our 6 children was taken in front of our vegetable and flower garden. They all like to have gardens and flowers of their own. Francis, Jr., had a real good garden last year. He has been busy selling seeds this year in his spare time. We sure have good luck with your seeds."—Mr. and Mrs. Francis Harman, Rt. 1, Box 195, Molalla, Oregon.

Little Helper

"Dear Mr. Field: This is my little helper taken in my 1946 garden. Her name is Dawn Marie Kling, age 4, holding a colander of your tomatoes."—Carl T. Kling, 522 So. Union St., Aurora, Illinois.

No, Cannas Don't Smell

"Dear Mr. Field: This is my little daughter, Glenice Jane, age 1 1/2 yrs., taking a good look and wondering why cannas don't smell. I'm ordering some more. The one I got from you last year did very well."—Mrs. John Rauschenberger, Kief, North Dakota.

694 Lbs. Last Year 715 Lbs. This

Here's a picture of Robert Earl Hughes again. You'll remember the picture of him last year in Seed Sense. He weighed only 694 lbs. then. He lives on Rt. 4, Mt. Sterling, Ill. "I am 20 yrs. old and still gaining. Would like to see this picture in Seed Sense," he says.

Gain 6 Months Plant this Fall

That's the story. One-half year's headstart on fall planted stuff. Things you didn't get in last spring and want to plant next spring get a whole 1/2 year's headstart if you set them out this fall.

Plants don't just sit still all winter. They grow. The roots spread out, the root buds swell in preparation for shooting out more roots, the dirt packs firmly, and the plant does during the winter what it would have to do in the spring anyway before it would put out leaves.

Even if it didn't grow any, the fact the dirt was packed firmly during the winter would be enough advantage. I really believe that half of the stuff lost from spring planting is because the dirt isn't packed firmly enough about the roots.

Mind you, I don't say a thing against spring planting. I couldn't if I would. What I say is, if you'll plant this fall, your plants will have 6 months headstart.

Plant Iris & Poppies Early

One of the reasons I'm sending the Fall Seed Sense and Catalog out so early is so that you can get early things planted early. Among these are iris, oriental poppies and peonies. All three should go into the ground in August and September.

Although they can be planted later in the fall, and in the spring too, these 3 do so much better planted early that it's foolhardy to plant them at any other time. This way they make the necessary starting growth that assures full bloom the next season.

3-Year-Old Apple Tree

"Dear Mr. Field: Here is a picture of myself taken by my 5-in-One apple tree. It is now 3 yrs. old and was all in bloom this year. My father always bought Henry Field seeds and thought they were the best and we do, too. Had a package of your contest melon and it was sure fine."—Mrs. Ophelia Lawson, Rt. 1, Colt, Arkansas.

Couldn't Be Better

"Dear Mr. Field: Just wanted you to know how pleased I am with the chicks I got from you. They sure are a wonderful bunch of White Rocks. Couldn't be better. They are feathering out now and doing so well."—Mrs. Thomas E. Harnich, Rt. 3, Box 84, Elizabeth, Illinois.

About YOUR Name

If you're getting more than one catalog I'd sure like to know about it next time you write or order. Sometimes you folks send in your order under Mr.'s name. Next time under Mrs. and then maybe son John and daughter Joan. Can't always tell if it's the same family. And since I don't want anybody to miss a catalog if he wants one, I send one out for each name. So, let me know if you get more than one catalog, and if you do, give it to a neighbor.

Bears 4 Yrs. in Calif.

"Dear Sir: We bought some of your Hopi Lima beans four years ago and they have been bearing summer and winter ever since. Not all the plants weathered the elements these four years but the last two years we have had enough for our use both summer and winter. Out of a dozen Hales Best muskmelon plants we got over 300 cantaloupes. Pretty good for one who never raised this item before."—Mrs. R. A. South, Sta. N1, Box 23, Los Angeles, California.

Mrs. Field's Pumpkin Pie

- 2 cups stewed and strained pumpkin
- 2 cups rich milk or cream
- 1 cup granulated or brown sugar
- 3 eggs
- 1 teaspoon salt
- 1/2 teaspoon ginger
- 1 teaspoon cinnamon
- 2 tablespoons sorghum or brown sugar.

Mix pumpkin with milk, sugar, beaten eggs, salt and spices and heat 2 minutes. Pour into pie tin which has been lined with pastry. Place in hot oven at 450 degrees F. for 10 minutes, then lower heat to 350 degrees F., or "medium" and bake until filling is firm.

This makes two 8-inch pies or one very large one.

Golden Wedding

"Dear Mr. Field: Here is a picture taken on our Golden Wedding Anniversary. Sure had a good garden last summer. Raised and sold \$20.00 worth of green beans. Some of my celery bunches weighed 2½ lb. and the cabbage was sure fine, so sweet and nice. Have been ordering seed from you for a good many years. My zinnias and asters were sure beautiful last summer."—Mrs. Ella Harper, Rt. 4, Box 151, Buckhannon, West Virginia.

Am sending a Rose to help celebrate.

A Rainbow of Tulips

If you want to make a really big planting of tulips—and who doesn't!—choose one of my Rainbow Collections. This way you get all the colors, and get the best price, too. In spots where you need a special color, or where you want to match up colors, order by variety.

Plant Something New

Nothing makes a garden more interesting than something new. That's why I send you a new catalog each season. Of course there are a lot of the old dependables that just can't be beat, but in almost every class there is something new each year.

For instance, this Fall there are Henryi and Speciosum lilies that haven't been available for several years. There are new varieties of iris, including some amazing baby doll iris in bright colors. There are new colors and types of tulips and daffodils.

And a hundred other things. So look over the catalog pages, and order at least a few "new" things this fall.

29 Years Ago

"Dear Sir: Our boy, Ronnie, age 5, holding a mammoth sunflower grown from your seed. They were beautiful. They were about 12 ft. high and very large as you can see. This picture was taken with my camera I got for selling your seeds 29 yrs. ago. I had the most wonderful garden and truck patches of anyone around here. Canned, used and sold many dollars worth. Had some lovely flowers also."—Mrs. Wm. Bolen, Rt. 1, Greenville, Ohio.

Hold Still Bossie!

"Dear Mr. Field: We sure enjoy your seed book and am sending another order. We started out with Field's seeds 34 yrs. ago and sure enjoy eating the good things from the garden. I am sending a picture of our little boy when he was small trying to milk the cow."—Anna Forester, Lanton, Missouri.

From Way Down South

"Dear Mr. Field: Everything I ordered last year did fine. My tomatoes were the finest I have ever had. They were Marglobe, Rutgers and Red Head. Wish you could see my Belmar strawberry patch. Ordered 200 plants and think every one lived. Sure enjoy Seed Sense."—Mrs. Ira Phillips, Othello, North Carolina.

Brightest Flowers of All

Oriental Poppies will brighten up a garden like no other flower. And you all should have at least a few. Have some beauties this fall that I grew here in Shenandoah. Can give you an amazing price on them, too. Here's my offer: 1—WHITE KING, pure white with black cross at base; 1—BETTY ANN, best of the light clear pinks; 1—RED FLARE, large, very brilliant orange. All 3 for only \$1.49 postpaid. BN543X.

Poem

If you want a good garden
Consult Henry Field,
Because he knows how to make
The gardens that yield.

Now the wisest thing to do
Before you commence,
Is to get a new copy
Of Henry's Seed Sense.

Then Henryize an order
For all of your seeds,
And such other articles
As a good garden needs.

Then follow his directions
And soon you will own,
A fine Henry Field garden
The best ever grown.

A Popcorn Tip

"Dear Henry: Just want to tell anyone that would like to raise popcorn if they will plant your Hybrid South American they will sure raise some corn. Have raised several kinds but since I planted your seed I have corn for my own use and lots for sale. When they buy my corn once, they depend on me for the next crop."—Mr. Ivan Shirley, Rt. 2, Box 37, Thompsonville, Illinois.

Likes Parrot Tulips Best

"Dear Sir: I am enclosing a picture of my little daughter, Rena Rae, taken by my tulip bed which I purchased from you. It was taken last year, the first year of blooming. I was so well pleased and had so many beautiful colors. I like the Parrot tulips best of all."—Mrs. Alice Schroder, Rt. 2, Brazil, Indiana.

Hiding in the Sweet Corn

"Dear Mr. Field: This snapshot is of my 5½ yr. old son, Rodney. He was peevish about something at the time and wouldn't look at the camera. Note the fine corn, Golden Cross. It was the best we ever raised."—M. A. Troutman, 2066 Granville Rd., Worthington, Ohio.

Thanks to "Skippy"

"Dear Sir: Your seeds and plants are the finest and I shall continue using and boosting them. Am sending a snapshot of our youngest son, Larry. That was one time he stood still to have his picture taken, thanks to his puppy "Skippy." The dense green carpet is Field's pure Kentucky Bluegrass sowed the year before. Thanks for making my gardening success possible."—Mrs. Norman Houk, Rt. 2, Box 56, Grove City, Minnesota.

"Enjoy Ordering"

"Dear Mr. Field: Received your Seed Sense again and think it is a real paper. Enjoy ordering your shrubs, trees and bulbs because I have such good luck with them. Here is a picture of a Catalpa tree I ordered from you. Has been out about 18 mos. The first spring it only had about 5 leaves and look at it now. The smaller guy is my brother and the other my husband."—Mrs. David Brewer, Rt. 4, Box 281, Paragould, Arkansas.

All from One Seed

"Dear Sir: This Heavenly Blue morning glory was grown from one seed. Thought it would be interesting for your Seed Sense. Some of the blossoms were 6 inches in diameter. Had a beautiful flower garden. That is my husband in the picture."—Mrs. R. A. Somers, Rt. 1, Champaign, Illinois.

Fooled Again!!

"Dear Mr. Field: Here is my little granddaughter dressed as a bride. Her name is Marian Johr and she is 4 years old. The flowers were gathered in the woods. We had a fine Henry Field garden last year. Enjoy Seed Sense very much."—Mrs. Oscar Johr, Rt. 1, Granton, Wisconsin.

Fooled again! But guess I'll have to send a rose anyway. H. F.

Takin' It Easy in Va.

"Dear Mr. Field: Am sending you a snapshot of my 3 yr. old son, Larry. This was his favorite pastime at milking time all summer. Hope you can use it in Seed Sense. We like your garden seeds very much."—Mrs. Fred J. Pugh, Riner, Virginia.

Surprised at Size

"Dear Sir: Received my rose bushes and was really surprised at the size of them. They are so much nicer than the ones I ordered from Texas. Everyone says they are the very finest they have ever seen. Thank you for my free gift."—Mrs. J. T. Leerskov, Box 94, Bromide, Oklahoma.

"Tiny" Spring Bulbs

Most of us don't plant enough of the tiny spring bulbs. I guess the reason is that their bloom is so small that the tulips and hyacinths and daffodils in the catalog overshadow them. Every spring when the first crocus shows its bright bloom, I wish I'd set out more. And this goes for the Grape Hyacinths, Glory-in-the-Snow and Scillas, too. They bloom so early, that even in spite of small size they are as welcome as spring itself.

A good hoeing sometimes is worth even more than a light shower.

Send in Your Pictures

Yes, I still want your pictures and the more pictures I receive the better I like it. I enjoy seeing how my garden seed, nursery stock, etc. produces for you. And don't forget to send some chicken, corn and field seed pictures, too. It's a lot more fun putting out Seed Sense if I have a lot of good customer pictures for it. And remember I still pay 50c for every picture I use.

A Boy and His Pony

"Dear Mr. Field: This is my son, Frank J. Marshall, age 10, on his pony. We have some beautiful Lilac bushes and Spirea in our yard that came from Henry Field's and are the same age, 10 years old."—Mrs. Frank J. Marshall, West Rd., Munnsville, New York.

Some H.F. Chickens

Mrs. Roy Frazier, Arthur, Nebraska, sends this picture of her husband and herself taken with some of her mother's White Rock pullets which were purchased from Henry Field's. Mrs. Frazier says, "I am sending you a big order soon."

H.F. Packets Most Generous

"Dear Mr. Field: I really have good luck with your seed and the packets are the most generous I have ever seen or bought."—Geo. F. Copeland, Rt. 1, Carnegie, Oklahoma.

Order by Number

I always like to give my customers the best service possible, and I know that is what all of you want. One of the things that will help both of us is to order by number, and use my order blank or any piece of paper. The number is always prominently displayed so you can't miss it.

Henry's Haunted House

You'd be amazed and maybe scared too if you could come down in the big nursery storage cellars here at Henry Fields. This year is paying off on an experiment we've been conducting for some time. We're using electronic tubes, long blue ones that give a haunted atmosphere to the cellars, that absolutely kills fungus germs of any kind that might attack the nursery stock. So when H. F. nursery comes out cleaner to you than ever before, you'll know that this is part of the reason.

You should come visit us and see some of these new improvements. We've got a lot to show you, and we're always glad to have you.

In Our H.F. Onion Patch

"Dear Henry: This picture of my husband and myself was taken in our patch of 300 Sweet Spanish onion plants I purchased from you. We raised 3 bu., the largest one weighing 1 3/4 lbs. We like your seeds very much."—Mr. and Mrs. Albert Lange, Sr., Rt. 4, Ashley, Ill.

Storing Root Crops

Storing vegetables after frost need not require any considerable equipment. An unheated shed or garage will serve to keep root crops, including beets, carrots, turnips, rutabagas and potatoes.

Carrots, beets, and turnips may be put in boxes packed in soil, peat moss or sphagnum moss, and this should be kept moist. Until outdoor temperatures fall much below freezing, this storage will be satisfactory.

Parsnips and salsify may be dug, sorted into lots, and placed in paper bags. These bags may be placed in a box and left outdoors in a place sheltered from rain. The vegetables will be improved by freezing.

Squash and pumpkins should be kept in a temperature higher than 60 degrees for a week after harvest, to harden them; then stored in a dry basement or attic in a temperature not lower than 40 degrees. Store onions in a dry place protected from freezing where the air can circulate freely around each bulb.

If your garden surplus of root crops is so large that it will last until low temperatures and make an unheated garage or shed risky, a shallow outdoor pit insulated against freezing by heavy layers of straw or excelsior, and covered with earth will keep them sufficiently moist to prevent drying and shrinking. This pit can be made by selecting a space from which water drains quickly and making an excavation between 6 inches and a foot deep. Line with a foot of straw or excelsior, and pile the vegetables upon this in a mound 2 ft. high. Then cover with a foot of straw, excelsior or dead leaves and throw over this at least 6 inches of soil. Then another foot of straw or leaves and enough soil to hold it down. The insulating material should emerge from the soil at the top to allow some ventilation.

A 7 Ft. Dahlia!!!

"Dear Mr. Field: Our rainbow collections of dahlias and cannas were both fine. Had a big white dahlia which towered 7 ft. and had flowers as big around as a milk bucket. We had beautiful flowers."—Mrs. James Henry Williams, Oxford Manse, Georgetown, Kentucky.

1, 2 & 3

Yes, these are triplets all right. They are Dale, Dean and John Fahnestock, 2½ yr. old grandsons of Mrs. B. F. Lebo, Rt. 1, Carlisle, Pennsylvania. They are holding turnips grown in their mother's garden.

Through an Oyster's Eyes

An oyster house in Hartford, Conn., recently marked its 100th anniversary. By way of celebrating the event, it published a menu comparing conditions then and now. Said the menu:

"We opened in 1846, when women wore hoop skirts, frilled cotton drawers, did cleaning, washing and ironing, raised big families, went to church Sundays and were too busy to be sick. Men wore whiskers, chopped wood, bathed once a week, drank ten-cent whiskey and five-cent beer, worked 12 hours a day and lived to a ripe old age. Stores burned coal oil lamps, carried everything from a needle to a plow, trusted everybody, never took inventory, placed orders for goods a year in advance, and always made money."

This, of course, was the era which orators have in mind when they talk about progress. We have progressed since then. What have we progressed to? The centenary menu makes it perfectly plain:

"Now women wear an ounce of underwear, smoke, paint, powder, drink cocktails, have pet dogs and go in for politics. Men have high blood pressure, little hair, bathe twice a day, are misunderstood at home, play the stock market, drink poison, work five hours a day and die young. Stores have electric lights, cash registers, elevators, never have what the customer wants, trust nobody, take inventory daily, never buy in advance, have overhead, mark-down, stock control, Dollar Day, Founder's Day, Economy Day—and never make any money."

Pruning Roses

In the fall Roses should be pruned back from 18 in. to 2 ft. to prevent being whipped by strong winds which would loosen the plant and break the newly formed feeding-roots. They should be hilled up 12 inches with soil and the tops covered with leaves, evergreen boughs, or some material which will not pack into a wet, soggy mass. When the covering is removed in the spring, cut out all diseased and dead wood first, making clean cuts and leaving no stubs. The more severely a rose is pruned, the more vigorous the resulting growth.

A Lb. Average

"Dear Mr. Field: We sure had grand onions from the Sweet Spanish plants we ordered from you. Most of them averaged about a lb. apiece. Our strawberries sure done well last year. They were the Minnesota 1166 and Senator Dunlap."—Mrs. Chas. A. Foster, Box 72, Peru, Nebraska.

NEW Apple Coming

Can't tell you about it yet, but I've got a brand new Henry Field Apple coming for next spring. It's different, and you'll sure want at least one tree. Watch for it in the big catalog next January.

Perennials Bloom Earlier When Fall Planted

Since most perennials are early bloomers, they are ideally suited to fall planting. Not only will they do better when set out in the fall, but in this way you are sure of blooms the first year. Most people wait until spring to plant them, and during a normal spring season this is perfectly all right. During a late wet season it oftentimes happens that perennials get set so near their blooming season that they do not have time to develop to their full beauty.

When you plant perennials in the fall, do not expect them to make much top growth. With few exceptions they confine growth to the roots, which is what you want. Cover them completely with soil late in the fall. Uncover them in the spring, and they're ready to grow and bloom with full vigor.

Enjoyed the Contest Melon

"Dear Sir: We were among those who got a few of your contest melon seeds last year. They were wonderful, absolutely delicious, wonderful flavor and of very fine texture. As fine a melon as we ever tasted."—Mrs. C. A. Buttleson, Box 25A, Coeur d'Alene, Idaho.

Appreciates Gift

"Dear Mr. Field: Received my flowers all in the nicest condition. The gift was greatly appreciated. Thank you so much for giving such a small order such nice attention."—Mrs. Lawrence Williams, Rt. 11, Box 426, Fort Worth, Texas.

Direct from Holland

You'll remember the beautiful tulip, hyacinth and daffodil bulbs I sent out last fall. Well, this year I'm going to send bulbs that are even better. They're direct from Holland, where our growers tell me, bulbs are in perfect condition. As usual, they'll be mailed to you in late October or November, but again as usual, it will be the earlier order that gets the choice. Some of the newer varieties will be in short supply, so don't delay sending in your orders.

H.F. Glads in Georgia

This picture was sent in by Mrs. John Wofford, Rt. 3, Summerville, Georgia. It is her daughter, Mary Francis, age 6, taken with some gladiolus from Field's. Mrs. Wofford says, "The one Mary Francis has ahold of measured 6½ inches across."

Nursery Gifts from Henry Fields

Am always getting orders saying "send these roses or glad bulbs or tulips to Aunt Mary for her birthday, and please write her a letter, telling where they came from." Of course, I'm always glad to do it. But it makes me feel like there's a service you customers want, that I'm not doing right by.

Have been thinking I should have some gift orders in the catalog or Seed Sense, along with gift wrappings and boxes. What do you think? If I had them, with Birthday and Christmas gift cards with your name on them, would they be helpful? Let me know next time you write or send in an order. If you want them, I'll have them for you.

Supply Short on Clinton Oats

You'll notice the story on Clinton Oats, the most outstanding oat in years, here in Seed Sense. Just want to remind you here that these oats won't last long. We don't have enough. So get your orders in early.

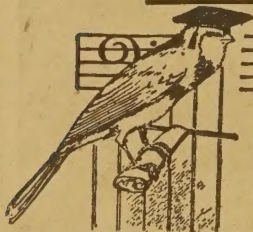

Nursery Stock for Southern Gardens

This year for the first time, I'm listing 1 page of nursery items for Fall planting in Southern gardens only. By this I mean, for gardens south of Shenandoah. Although most things can be fall planted anywhere, lots of them do well only when planted in the spring.

Every year I get letter after letter from Oklahoma, Missouri, Texas and a dozen other states south of us asking "why can't we buy peaches, and strawberries, and crepe myrtle, etc.," in the fall. Well, this year you can. They're listed right here in Seed Sense with a hundred other items.

But you people in the north shouldn't be too tempted. These things don't do so well north of Missouri. If you insist on ordering, remember "I told you so."

School-Trained Canaries

We Pay You Top Prices for Your RAW FURS

A Henry Field shipping tag tied to your Raw Fur shipments, means complete satisfaction to you, every time.

Write for Price List

Get your name on our mailing list, so we can send you our Raw Fur price lists and shipping tags. They will be sent you as soon as fur time is here. We also buy tame rabbit skins all year around.

Yes, this is Jim who is our main standby at our Ozark home. He is cultivating a young strawberry patch with "Bess and Beck." Beck is the 17 year old mule who has worked for us all her life and knows more about cultivating than most men. Bess is a beautiful bay filly who is getting her training by working with old Beck—and she don't think it's any disgrace to work with a mule either. They both love Jim and will follow him around like dogs. No, those are not weeds in the strawberries. It's stray alfalfa plants coming up as this was an old alfalfa field we plowed up to use for a new strawberry field.

FREE GIFTS with Your Orders

Have always believed in a fair price, plus fair measure and a little more. That's why you see so many FREE GIFTS with your orders from Henry Fields. No matter what you order, you get something extra. If you order seeds, you will get some extra packets, something you probably couldn't get any place else. In nursery it's the same, you get extra plants, besides what you pay for. So look for them in your orders. They're all plainly marked FREE GIFT. And the bigger the order, the bigger the free gift or the more of them.

A lawn which goes into the winter well fed, is far more likely to emerge in the spring with a minimum of injury.

Reid National Joins United

I know a lot of you folks here in the Midwest and clear down into Texas will be glad to learn that the Reid National Corn Co., producers for years of Reid Yellow Dent type hybrids, has joined with United.

This makes United Hybrid, the kind I sell by mail and at my stores, even better than ever. All of Reid's inbreds and the people who made them come in, too.

The idea of hybrid producers joining together to produce the "best possible hybrid" is certainly a good one, as I told you last year. Those of you who grew United corn realize that now. So, when you get around to ordering (and don't put it off too long) send your orders in to me at Shenandoah. But first, write and let me know if you want a copy of the big, full color, United corn book. It's free. All you have to do is ask for it.

Please Help Me

If you are one of my customers getting 2 each of my catalogs or Seed Sense right along, you could do me a real favor if you'd just drop me a card or tell me on your order when you send it.

You see these days we can't always get enough help to keep our list right up to date. Rather than make a mistake and cut somebody out of getting their catalog, I lean the other way and sometimes mail two to the same house. This costs me a lot of money and with your help I can stop the waste. Will you help? Thanks.

Here's a form you could pin on your order or paste on a card and I'd sure appreciate it.

☐ I receive more than one catalog.

Mrs. Field and I Mail Wild Flowers Direct

This year Mrs. Field and myself will fill all the orders for our Ozark Wild Flowers ourselves, at the cabin, and mail them to you direct from there, so as to give you the best possible service. Send your orders direct to Shenandoah as usual. You can order right with the rest of your order and we will separate them here. Wild flowers have always been our hobby, and since we have been living part time in the Ozarks, it's been more so than ever, for that's a paradise for wild flowers. We have collected dozens of kinds and have them growing in our garden, and many of them we have been sharing with you through the catalog. Now by mailing them ourselves direct from there we can help you still more.

They will come to you at the proper time for planting, fresh and vigorous, and sure to live and bloom. H. F.

Set Fruit Now Get a Head Start

Most fruits can be set in the fall and will do better, then, too. This way you get a chance to do away with some of the spring garden work in the fall when you have more time. Peaches and apricots won't do well, except south of Iowa, but for most of the rest, get it in this fall.

Write Me a Letter

Mine is a friendly business and the better I get to know my customers, the more I can help them with their garden and farm problems. So write me a letter and if you have any problems I'll do my best to help you. My advice is free and I am always happy to pass it on to someone if it will help them in any way.

Stick 'Em Up!!

"Dear Mr. Field: I'm an old customer of yours as I sold seed for you back in 1915 or '16. Am sending an order for seed and enclosing a picture of our oldest granddaughter. She's not as tough as she looks, as the pose was for our son who was on Guam."—Mr. and Mrs. M. T. Rhodes, Rt. 2, Hackett, Arkansas.

Wild Flowers — Direct From My Ozark Garden

Plant Wild Flowers in Fall

It is very important that you plant the Wild Flowers this fall. So rush your order in at once and I will get the plants right back to you in time.—H.F.
Prices: 4 for \$1.00; 6 for \$1.40; 12 for \$2.50; 25 for \$5.00—all postpaid.

(Either all alike or assorted to suit)

I am listing and offering to you here, some that do especially well in the average garden. All are perfectly hardy and most of them prefer the shady side of the house or shrubbery, where it's hard to get most things to bloom, but some (marked with an *) also do well in sun.

HF-1—BLUEBELL (Mertensia)—Best known and best loved of all native wild flowers. Prefers shade or partial shade. Fine to naturalize among shrubs.

HF-2—*BLUEBELL—Everblooming (polemonium)—No kin to the other Bluebell but has somewhat similar beautiful blue flowers and fern-like foliage.

HF-4—COHOSH (Cimicifuga racemosa)—Beautiful hardy tall growing pure white spikes of delicate lacey flowers. Blooms

HF-8—SMALLER WOODS FERN—Produces masses of lacey delicate fronds 6 to 12 in. high.

HF-9—ROCK FERN—Somewhat similar but slightly larger and especially suitable to rock garden work.

HF-10—*BRACKEN FERN—A dry land or sunshine fern. Will grow in either shade or full sun and regardless of moisture.

HF-11—*GERANIUM—wild or hardy (geranium maculatum)—Beautiful member of the geranium family, absolutely winter hardy. Will grow and bloom anywhere either in sun or shade.

HF-13—HEPATICA (liverwort)—One of the loveliest little spring flowers. Low growing with pink, blue, or white flowers.

HF-15—JACK-IN-THE-PULPIT—Has calla-like maroon spotted flowers with a typical "pulpit and preacher" appearance. Very large attractive leaves.

HF-16—MAY APPLE—Attractive large umbrella-like leaves and big waxy, fragrant flowers. The name comes from edible fruit.

HF-17—*MOONFLOWER—hardy or perennial (ipomea pandurata)—At last, a moonflower that is hardy and comes year after year. Flowers about the size of Heavenly Blue, but large pure white with a deep red spot in the throat.

HF-18—*PENTSTEMON—Perfectly hardy and will grow in either sun or shade. Will thrive either wet or dry. Grows about 2 feet high with beautiful blooms something like a white foxglove. Fine plant for border or rock garden. Easily grown.

HF-19—*PETUNIA—perennial or hardy (ruellia)—Here's a real novelty everyone will want. Lovely petunia-like flower that can be had permanently in your garden. Blooms steadily all summer. Perfectly hardy, coming up from the root each year. Thrives in either sun or shade and either wet or dry.

OZARK BLUEBELLS

HF-20—PHLOX—timber, wild blue (divaricata)—Beautiful fragrant blue or lavender early blooming wild "Sweet William." (Very pretty planted among shrubbery or naturalized.)

HF-21—PHLOX—*Red (pilosa)—Much similar but bright red in color. Does well in sun.

HF-5—HARDY FERNS COLLECTION—They delight in shade, rich soil, and moisture. Ideal for the north side of house or shrubbery. We have many kinds here. Special collection offer—10 in 5 different sorts for only \$2.00.

***VIOLET COLLECTION**—There is said to be over 100 different kinds of violets but I've never tried to grow them all. I have grown a great many of them, however, and have picked out 6 of the best to offer to you. All will grow in either sun or shade. All are perfectly hardy and perennial. **HF-25—Red, HF-26—White everblooming, HF-27—Yellow, HF-28—Blue, HF-29—Ozark "bird-foot" (pedata), HF-30—Arrowhead (Purple).** Special—All 6—2 each for \$2.00.

HF-22—PHLOX—*Pink Tall (paniculata)—Strong growing, 2 to 3 ft. high, pink clusters.

HF-23—SHOOTING STAR—(hardy cyclamen)—Very pretty orchid and pink cyclamen-like flowers borne in clusters on slender stems 12 to 16 inches tall. Perfectly hardy.

HF-24—*SPIDERWORT—Giant Blue (tradescantia virginiana)—Exceptionally vigorous, thrifty and free blooming with pretty blue flowers over an inch across on 3 foot stems. Grows in either sun or shade.

HF-34—WILD HYACINTH (Camassia)—Long spikes of beautiful light blue bloom, early, hardy.

HF-35—*ALLIUM ROSEUM—Similar to the imported French variety but native here, and hardy. Big umbels of lovely rose-pink bloom on 15 in. stems, from bulbs planted in the fall.

HF-38—GREEN DRAGON—A beautiful and unique plant of the Indian Turnip family. Hardy.

HF-39—*MISSOURI PRIMROSE—Gorgeous yellow blooms as large as a teacup, on a low semi-trailing bush, blooming all summer. Prefers hot and dry.

CHIVES—Free. Will send a small clump free with your order if you wish. Used for seasoning or makes a pretty flower.

OTHER GIFTS—We always put in many plants free.

MAY APPLE

"Buckeye" Good Luck Charm

Yes, I have plenty of Buckeyes again. Gathered them down in the Ozarks last fall. They make a unique and interesting pocket piece or Good Luck charm. All Missourians are supposed to carry them, for luck, and as a charm against rheumatism (but I wouldn't guarantee them for that). The children string them for necklaces. President Truman is said to carry two of them in his pocket. Better get you some.—H. F.

4 for 25c or 25 for \$1.00, Postpaid.

NEW! EVERBLOOMING BLUEBELLS

in June, July and August. 4 to 5 feet high.

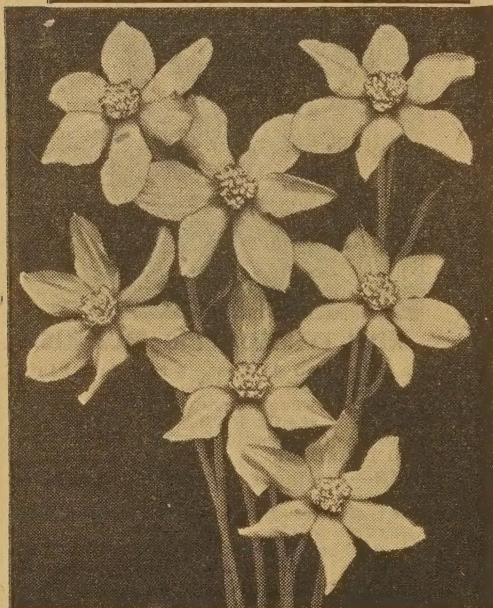

HF-6—CHRISTMAS FERN—Large and showy. Stays green practically all year.

HF-7—MAIDEN HAIR FERN—Probably the best known of all wild ferns. Very delicate and beautiful.

COHOSH

12 Narcissus, 79c Paper White Narcissus

The old favorite we all know. Makes ideal Christmas presents. Get enough bulbs so you can keep planting them at intervals of two weeks, and have flowers in the house throughout the spring. BN-920—3 for 34c; 6 for 54c; 12 for 79c, postpaid.

Chinese Sacred Lily

Looks like a Golden Narcissus. Much surer to bloom than the Narcissus Soleil D'Or, which I offered last year. Clusters of flowers on tall stems like paper white. Petals are cream yellow with brilliant golden cups. BN-921—3 for 39c; 6 for 69c; 12 for \$1.29, postpaid.

NARCISSUS COLLECTION—4 Sacred Lily of China and 4 Paper White Narcissus for 79c.—BN-930X. 10 Sacred Lily of China and 10 Paper White Narcissus for \$1.95, postpaid.—BN-931X.

HOW TO PLANT

Force indoors in bowls, filled with pebbles and water or in dirt. Let roots form growing out of light. Then bring into light, 3 bulbs to a pot. Pot up a lot extra. They make ideal Christmas gifts.

Bloomed the First Fall

"Dear Mr. Field: Here is a picture of one of your giant Hydrangeas. We got 3 plants and they all grew fine and bloomed the first fall. This is my cousin, Ray, in the picture. Would like to see this in your next issue of Seed Sense."—Darleen Schaeffer, Rt. 1, Grantville, Pennsylvania.

Tulip Like

a Peony

No, this isn't a picture of a peony, although it surely looks it. Not a double tulip either. It's a peony-flowered tulip. And a beauty you should all have a few of. The stems are 2 ft. long. Blooms are as big as a peony and as fragrant as can be. Have 3 of these Holland-grown rarities. EROS—BN-820, double flowered clear, old rose pink; MT. TACOMA—BN-821, double and pure white; UNCLE TOM—BN-822, rich, deep red like Karl Rosenfield peony. 3 for 60c; 6 for 98c; \$1.49 a doz. postpaid. COLLECTION—BN-874X, 12 bulbs, 4 of each, not labelled, only \$1.45 postpaid.

Tomorrow's Tulips Today

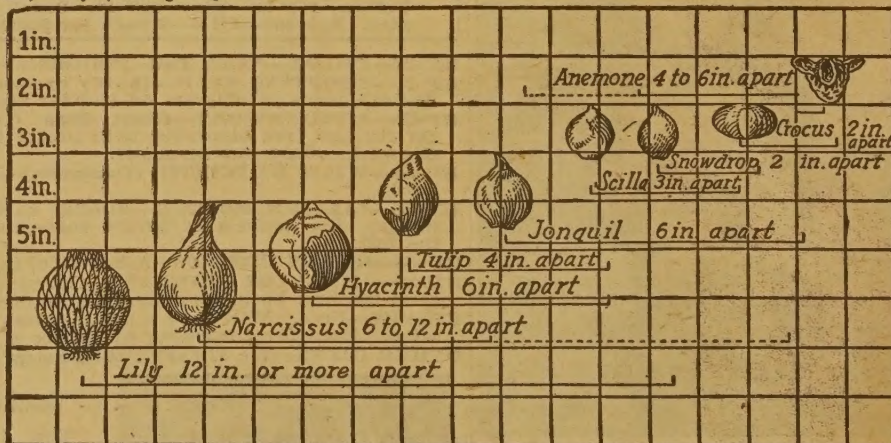

Last year in Seed Sense I made an offer of 3 new and outstanding tulips, and I guess most all of you got a few of them. Thought I'd do it again. The three this year are the newest and most amazing of all. They're pretty high priced, so I don't go buying too many of them.

MRS. JOHN SCHEEPERS—BN-813. Many of the tulip experts claim this is the best of all yellows. We had it blooming at Shenandoah in the trial garden and most folks here thought the same thing.

MARSHALL HAIG—BN-814. Redder than red. Large flower of brilliant red with pure yellow base. Extremely large—very tall stems.

WHITE CITY—BN-815. This pure white makes the reds look even redder. One of the largest blooms I ever saw. 30 in. stems. As beautiful as fresh sifted snow.

Prices: 25c each; 3 for 54c postpaid. COLLECTION: BN-876X—4 of each, 12 bulbs in all, only \$1.98 postpaid.

Plant Bulbs in the Fall for Spring Beauty

Take care in planting fall bulbs to see that they have every chance of success and play their full part in beautifying the garden. The above Bulb Planting Depth Chart will show you the depth and distance apart to plant bulbs. If the ground has been newly spaded, and is quite loose, the depths should be increased an inch or so to allow for settling, and because of the increased effect of frost heaving on newly turned soil. Also, late planted bulbs which have no opportunity to make roots before the soil freezes, may be set a little deeper to protect them from frost action. All fall bulbs can be planted as late as March 1st, and we have done this with great success.

Enjoy Flowers this Winter by Growing Them Indoors

A great variety of flowers may be forced into bloom indoors with very little trouble. The easiest plants to grow indoors are the bulbs, both the hardy kind, and tender varieties which will not stand our winters but grow vigorously indoors.

Some of them need potting in soil, others can be grown in bowls with fibre, moss or even pebbles and water. All bulbs can be grown in soil, a smaller number in fibre, and still fewer in water with pebbles, or moss.

Tender narcissi known as Paper Whites (white), Soleil d'Or (yellow), and Chinese Sacred lilies can all be grown in water with pebbles or moss.

In bulb fibre, which is a mixture of peat and plant food, it is possible to grow in bowls without drainage all the above, together with daffodils, early tulips, crocuses, freesias, calla lilies, grape hyacinths and scillas.

In pots with soil all the above can be grown, together with garden tulips and narcissi, amaryllis and some lilies.

No skill is required, some knowledge of plants, plus patience and care, are all that are needed, and the reward is rich.

H.F. Roses in Florida

"Dear Mr. Field: Just wanted to tell you how well everything I have gotten from you has turned out for me. Have some of the finest and most beautiful roses I ever saw. Never knew the blooms could be so large. I tell my friends if they want a fair and square deal to buy from Henry Field's"—Mrs. John A. Oerting, Pensacola, Florida.

Payment in Nursery

Sometimes we receive orders from our customers that include both postage free items and others which should be shipped express collect. When these two go out together, which sometimes happens, the customer has to pay express charges on the items which he bought at a postpaid price. Naturally, this isn't fair. So to make it right with the customer, we always try to send along extra nursery stock that is worth MORE than the postage charges involved. This seemed better than to make up two packages, and the customer actually gets a very good bargain out of it.

HENRY FIELD'S TALL STATELY DARWIN TULIPS

CREAM
BN-804 — (Illustrated above). True soft lilac shade. A very unusual Tulip. Try a bed of this lilac beauty surrounded by two or three rows of Yellow Giant.

PRINCESS ELIZABETH—BN-807—Beautiful clear pink. A comparatively new variety that is certainly going to take its place with the best.

RED INDIAN COLLECTION—BN873X

Here is the brightest I know. The neighbors will come to see the bonfire. 3 each of Campfire, Afterglow, Victory, and Pride of Harlem. All 12 bulbs for \$1.00, postpaid.

SPECIAL OFFER—BN856

KEIZERSKROON—I have again this year obtained some of the famous old tulip that everybody knows. One of the earliest tulips and very brilliant. Have had so many people ask for this famous old variety that I managed to get a stock of it again for this year. It is a brilliant red with broad golden border. Extra large flowers on tall, strong stems. A bed of this variety looks like Holland itself. 6 for 79c; 12 for \$1.29; 25 for \$2.39; 100 for \$8.49, postpaid.

YELLOW GIANT
BN-811 — (Illustrated above). The best bright, rich golden yellow. Always mix white and yellow tulips in between reds, pinks, and lavenders to show up colors best.

BLUE AMIABLE—BN-801—Nearest to blue of all Tulips. Lucky to have it. Very long stems. Your neighbors will envy this one.

CAMPFIRE
BN-802 — (Illustrated above). (Improved Bartington.) All the brilliance of the flame of a campfire. Brand new. So bright you can see it across the garden.

THE BISHOP—BN-808—Just my idea of a Bishop. Tall, stately royal velvety-purple. Plant with Yellow Giant or White Giant.

WHITE GIANT
BN-810 — (Illustrated above). Large snow-white on a tall stem. Try these white Tulips in front of dark green evergreens or mixed with bright colored Tulips.

LA TULIPE NOIRE—AN-805—Famous black tulip of Holland. Nearest to being truly black. Plant in front of yellow or bright red.

CLARA BUTT
BN-803 — (Illustrated above). Most popular Tulip of all. A fine clear pink. Ideal for bouquets, and outstanding in the garden. Giant flowers on tall stems.

VICTORY—BN-809—Deep red, good forcer. Does not discolor in bright sun. One of the brightest colors in all tulips.

AFTERGLOW
BN-800 — (Illustrated above). All the splendor of the glorious sunset seems reproduced in this Tulip. The very finest of the orange varieties. Very unusual.

PRIDE OF HARLEM—BN-806—Crisp scarlet, an enormous flower of superb form and beauty. Stately plant for borders and shrubs.

RED EMPEROR (The flaming red Tulip)—BN-812

This tulip has everything. Everyone who saw it blooming here at the seedhouse this spring has it on their list to be sure and get this fall. Has the flaming brilliance of the Oriental Poppies and is almost as large. It blooms even before the single early tulips, with the daffodils. Plant 6 of them on each side of the front steps, or try planting a whole bed of them. You will really have something to show. 15c each; 3 for 42c; 6 for 78c; 12 for \$1.45, postpaid.

PARROT TULIPS

Lovely rare and fringed giants direct from Holland. Giant size. Will bloom the first year.

FANTASY—BN-830—Deep apple blossom pink with delicate green border. Very fringed and very large. 6 for 72c; 12 for \$1.19; 25 for \$2.15; 100 for \$7.95, postpaid.

SUNDEW—BN-831—Bright cardinal red with crystal on the fringed and ruffled edges of the bloom. 6 for 72c; 12 for \$1.19; 25 for \$2.15; 100 for \$7.95, postpaid.

VIOLET QUEEN—BN-832—(The Blue Parrot Tulip). Petals are fringed in bright violet. Long stems and extremely large flowers. 15c ea.; 3 for 42c; 6 for 78c; 12 for \$1.44, postpaid.

RED CHAMPION—BN-833—A brilliant new one. Glowing red, deeply fringed. 25c each; 3 for 54c, postpaid.

PARROT TULIPS MIXED—BN-834—Here is a grand mixture of these brilliant beauties. While they last. 6 for 69c; 12 for \$1.10; 25 for \$2.10; 100 for \$7.79, postpaid.

BREEDER TULIPS

The Very Tall Dark Tulips

Most people think that Breeder Tulips are the very finest grown. A lot of the folks at the seedhouse feel that way, too, after seeing the beautiful display here in the show ground. They have the longest stems, sometimes 3 to 3½ ft. tall, and the largest flowers. Particularly striking because they come in deep purples, browns, bronzes, bronzy yellows, lavenders, deep reds and deep pinks. Flowers are all rich and boldly colored. Plant them in the back or center of your bed. The dark brown and buff shades, for which the Breeder Tulips are famous, show up particularly well when planted against a lighter background. We buy 20 to 30 named varieties of Breeder Tulips and mix them together to give you the finest possible mixture. BN-840. 6 for 72c; 12 for \$1.19; 25 for \$2.15; 100 for \$7.98, postpaid.

REMBRANDT TULIPS

"The Painted Tulip"

REMBRANDT TULIPS MIXED—BN-846—We always have been strong for the painted tulips because we know people like plenty of color and the Rembrandts have it. You customers who know them will have them down on your order already. They grow like Darwins and flower the same except the blossoms are beautifully striped and flamed, or flaked with vivid colors. They are rare and lovely, and even though priced a little higher, you will find them well worth while. 6 for 79c; 12 for \$1.29; 25 for \$2.39, postpaid.

AMERICAN FLAG—BN-845—The newest Rembrandt Tulip. Most folks think this was the showiest tulip we had in the display grounds this spring. It is a bright red tulip, striped and flaked with white. A solid bed of this beauty is really something to see. 6 for 79c; 12 for \$1.29, postpaid. Not more than 12 to a customer this year. We just don't have the bulbs.

COTTAGE TULIPS

"Mayflowering Tulips"

BN-850—The lovely lily-like blooms are bright colored and beautifully shaped. They bloom in May. These greatly improved Cottage Tulips are now pretty well known as May-flowering Tulips. They contain a great variety of clear bright colors. The flowers look like the pretty pointed caps the Dutch girls wear. Bloom on medium height stems. We buy 15 to 20 named varieties of these and mix them ourselves. Varieties included in this mixture will be sent to any customer upon inquiry. This is a special bargain offer of mixed Cottage or May-flowering Tulips.

Check these prices with any other prices that you may have and see the difference. All bulbs absolutely No. 1 size. 6 for 69c; 12 for \$1.10; 25 for \$2.10; 100 for \$7.85, postpaid.

FREE GIFT

For every order for bulbs over \$5.00, I'll send FREE one of my rare "bunch-flowering" tulip bulbs. 3 or more white and rose blooms on one stem. This is besides my regular Free Gifts.

MY FAMOUS

RAINBOW TULIP COLLECTION

Again I am offering you the best bargain in the country on genuine Darwin tulips. I can't say too much for it, neither can my customers who have bought it in the years past. These bulbs are slightly smaller (about two centimeters), than the giant size bulbs I am offering elsewhere, but they are plenty good and I'll guarantee every single one of them to bloom. People say that money doesn't mean anything today, but I believe my customers can still understand and appreciate a bargain. You will make money on me on this one as you have before, but you will have to admit, I always try to give you bargains, and have all of my life.

EVERY COLOR

I buy 20 to 30 named varieties of Darwin Tulips and we mix them right here at the seedhouse. I will send a list of the varieties in this mixture to anyone interested. That's why I call this my Rainbow Collection.

15 Blooming Size Holland-Grown Darwins for \$1.00 Postpaid
BN-871X

2 Collections (30 bulbs)—\$1.95, postpaid.
100 Bulbs for \$6.39, postpaid.

"GIANT" RAINBOW COLLECTION

These are the giant sized bulbs, the same good mixture as the other Rainbow Collection and will produce amazing large flowers next spring. Every color in the rainbow. A wonderful bargain in Dutch bulbs. BN-875X—12 for \$1.05; 25 for \$1.89; 100 for \$7.39, postpaid.

HYACINTHS from HOLLAND

GLORY OF THE SNOW

(Chionodoxa) — Extremely hardy, beautiful, very early spring bulbs. Increase rapidly. Scatter them. They bloom year after year. BN-980—6 for 35c; 12 for 59c; 25 for \$1.10; 100 for \$3.98, postpaid.

SCILLA CAMPANULATA

Ideal for wild garden borders and rock gardens. Sow themselves freely. BN-982—Blue; BN-984—Pink; BN-985—White; BN-983—Mixed. 12 for 59c; 25 for \$1.10; 100 for \$3.98, postpaid.

SCILLA SIBERICA (Spring Beauty)—The smaller flowering brilliant indigo blue. Can be used same as the above Scillas. BN-986. 12 for 65c; 25 for \$1.25; 100 for \$4.25, postpaid.

GRAPE HYACINTHS

(Muscari)—Make a beautiful border for the tulip bed or walk and are fine planted in solid masses. Heavenly blue spikes with grape-like blooms in deep, rich blue. Live for many, many years and increase in bloom every year. BN-981—12 for 59c; 25 for \$1.10; 100 for \$3.98, postpaid.

GIANT CROCUS

They bloom with the melting snowdrifts. Ideal to scatter in lawn and shrubbery. First bloom of spring. Giant flowered. BN-901—Purple, BN-900—Blue, BN-905—Yellow, BN-903—Striped, BN-904—White, BN-902—Mixed. 12 for 40c; 25 for 85c; 50 for \$1.59; 100 for \$2.98, postpaid.

SPRING BULB COLLECTION

This mixture will include Crocuses, Scillas, Grape Hyacinths, Star of Bethlehem, Daffodils and other early spring flowering bulbs. 35 bulbs in mixed colors and varieties. BN-990X. Only \$1.19, postpaid.

FIVE COLOR COLLECTION—BN-955X

One each of the 5 varieties of hyacinths. 5 bulbs in all for \$1.10, postpaid.

Genuine, Holland grown, large size hyacinth bulbs. Didn't have half enough bulbs last year to go around and maybe I won't this year. The Dutchmen tell me there is a pretty good crop of all bulbs in Holland this year except hyacinths so I tried hard to get my share of them ordered. Hyacinths are perfectly hardy in the garden but put on a mulch of straw, cornstalks, or some other protection to keep the bulbs from heaving after the ground freezes.

CITY OF HAARLEM—BN-940—Bright golden yellow flowers.

LA VICTOIRE—BN-942—Brilliant carmine.

MARCONI—BN-944—Deep, rosy pink.

L'INNOCENSE—BN-943—The most popular of all White Hyacinths, used in large quantities all over the world.

GRAND MAITRE—BN-941—Best of the blue hyacinths. Deep porcelain blue. Well formed spikes on a strong stem.

PRICES: 25c each; 3 for 69c; 12 for \$2.49; 25 for \$4.69; 100 for \$17.98, postpaid.

I don't believe you will find them as cheap anywhere, and I'll guarantee my bulbs are big flowering bulbs that will compare favorably with any that anyone is offering.

GOLD and BLUE COLLECTION—BN-956X

A striking combination of gold and blue hyacinths. Five bulbs each of deep blue Grand Maitre and bright, golden City of Haarlem. All 10 bulbs for \$2.00, postpaid.

RED, WHITE and BLUE COLLECTION—BN-957X

Here is a beautiful combination of the 3 colors in the center of the Hyacinth picture. One each of these 3 colors—3 bulbs for 65c; or 4 collections, 4 bulbs each, or a total of 12 bulbs for \$2.39, postpaid.

TREES

Plant This Fall—Gain 1/2 Year's Growth

These are all big, heavy-rooted transplanted specimens, straight and well branched. All do especially well planted in the fall. I send my own nursery planting book with each order to tell you how to plant. Send orders in early so trees can arrive at just the right time for planting.

Most Permanent of all Trees

HARD MAPLE

(Sugar Maple.) The compact, round-headed dense maple. Leaves are large green turning to brightest red in fall. Nature's most beautiful permanent tree. Takes a long time to get started, but lives forever. (Sugar Maple is shown in fall color. It is green all summer.) AN-709: 5 to 6 ft., \$1.79 each; 2 for \$3.45. Exp. not prepaid.

LOMBARDY POPLARS

"The Pillar Tree"

This is a tree that makes a tall pillar. Perfect for Sentinel trees of tall border around lot. Fast growing.

AN-714: 4 to 5 ft. 35c each; 2 for 60c; 5 for \$1.39. Express not prepaid. 5 to 6 ft. 45c each; 2 for 80c; 5 for \$1.80. Express not prepaid.

BLACK WALNUT

Beauty and Profit

Black Walnuts growing here have borne heavy crops of nuts for many years. They are always easily sold but the REAL VALUE of this tree is in its beauty as an ornamental; its service in the wind-break; its profits in lumber; and its hardiness.

PEONIES

How to Grow Peonies

Set in August, September or October two inches below the surface of the ground, 3 ft. apart each way. Ideal for cemetery planting or border. Need no special care except plant food now and then. See that pink buds on crown of root are not more or less than 2 in. below ground level. Mound dirt over plants the first winter.

ALL CHOICE VARIETIES THAT SELL REGULARLY AT \$1 AND UP

Try at Least Four of These Giant Peonies

KARL ROSENFELD—Brilliant velvety crimson. Compact grower, stately habit. An excellent bloomer. Late. BN-305: 79c each; 3 for \$2.19, postpaid.

MME. DE VERNEVILLE—Bomb type purest white with carmine flecks. Very early, fragrant. BN-303: 79c each; 3 for \$2.19, postpaid.

FRANCES ORTEGAT—Big dark crimson, mid-season peony. BN-306: 79c each; 3 for \$2.19, postpaid.

MARY BRAND—A fine peony originated in the northern regions. This peony came from Faribault, Minnesota, and is one of the very best of all dark reds. Striking in size and effect. Lasting as a cut flower. Makes a great mass of vivid dark crimson. BN-323: 98c each; 3 for \$2.79, postpaid.

DOUBLE RED FERN LEAF PEONY—This is one of the scarcest of peonies and I have had an awful time trying to get enough plants to work up a stock. It blooms early in May here in Shenandoah. Doesn't grow very tall and is surrounded by finely cut, ferny foliage, much like cosmos. I am going to list this peony at \$1.50 each and I don't think you will find it listed for less than \$3.00 in any of the few catalogs that are carrying it. BN-311.

EMMA—One of the most beautiful of the pinks. Clear, bright pink. Very large and free flowering. BN-309: 79c each; 3 for \$2.19, postpaid.

FELIX CROUSSE—Rose type, late midseason. Its flowers are bright brilliant dazzling ruby red. Exceptionally fiery, bright and effective. BN-301: 79c each; 3 for \$2.19, postpaid.

RACHEL—Rose type. Huge double flowers bright as a garnet. Shaded richest ruby red. Midseason. BN-312: 79c each; 3 for \$2.19, postpaid.

GENERAL BERTRAND—Popular old-rose pink with a shining salmon center. You will like this one. BN-316: 79c each; 3 for \$2.19, postpaid.

ROSE FRAGRANS—Immense bomb type deep pink. Very, very fragrant, very large and very late. Flowers after most of the others are gone. BN-319: 79c each; 3 for \$2.19, postpaid.

LONGFELLOW—High rating. Very double. Mid-season. Rich crimson. Considered one of the best reds. BN-317: 98c each; 3 for \$2.79, postpaid.

FESTIVA MAXIMA—Early snow white with fleck of red on center petals. Immense flowers. BN-308: 79c each; 3 for \$2.19, postpaid.

EARLY VICTORY—A brilliant red coming on earlier than the early Eudulis Superba. Always in bloom for Decoration Day and a most brilliant beautiful peony in every way. It really deserves its name, Early Victory. BN-318: 79c each; 3 for \$2.19, postpaid.

HYBRID TEA EVERBLOOMERS

The World's Most Beautiful Roses

Giant 2 Year Plants

All Will Bloom Next Spring After Fall Planting
FIELD'S GIANT
 AN-403—Absolutely the most gigantic rose I've ever seen and perfect in its beauty despite its huge size. Very vigorous—in fact one of the hardiest roses I know for standing cold and heat both. Our own introduction and offered only by Henry Field. Propagation rights reserved. Limited stock. Price: \$1.09; 2 for \$1.98, postpaid.

HENRIETTA

AN-414 (My Yellow That Doesn't Fade). Long, stiff stems. Hardy. The perfect yellow rose. Named after my daughter Henrietta. Sold only by Henry Field.

PRESIDENT HOOVER

AN-409 (Has the Long Pointed Buds). Glorious cerise, shaded with yellow, orange and scarlet. Buds long, pointed and perfectly shaped. Best for cutting.

AMI QUINARD

AN-406 (Largest Red Rose). Immense rich velvety, very dark red, long lasting flowers that hold their color until petals fall. Fragrant and hardy.

PINK RADIANCE

AN-400 (Drought Resistant Rose). Flowers big, full, brilliant rose-pink. Hardy, free-blooming, disease resistant, like all the Radiance roses.

RED RADIANCE

AN-401 (Hardest Red—Free Bloomer). The "fool-proof" red. Will grow and produce hundreds of blooms in even very poor soil. Blooms constantly.

EDITH NELLIE PERKINS

AN-413 (Easy Grown—Two Color Rose). Flowers big and full. Outside orange pink, inside salmon flushed with pure gold. Buds long and pointed. Strong, healthy.

IMPORTANT—Fall planted roses must have winter protection (even ones planted in spring should have). Mound the earth up around tops 10 to 12 inches high after freezing weather starts and cover the bed with a heavy straw mulch. Roses do best in sunny location away from the tree roots. Set 20 inches each way.

NIGHT

AN-425—(A great black-red tea rose.) Deep blackish-crimson, shaded maroon. Really suggesting the propriety of its name. Strong grower and exceedingly healthy.

EDITOR McFARLAND

AN-415—(Has most Blooms.) Big, double, glowing-pink. Of hundreds of roses I've tried, this is by all odds the most outstanding pink one. Compact loaded bushes.

CHARLES K. DOUGLAS

AN-432—(Flowers all season.) Large, double fragrant flowers of flaming scarlet, flushed velvet crimson. Vigorous upright growth. Very free blooming. Holds its color well in summer heat.

K. A. VICTORIA

AN-410—(Blooms continually.) Favorite and best. Foliage exceptionally shiny and clean. Superhardy. Seems to bloom much longer than most hybrid teas. Buds and flowers glowing white.

RED and PINK IRIS

These are the glorious new colors in Iris—reds, oranges, and pinks. They're beautiful and so unusual we never have had enough. Please get your orders in early.

SPRING MAID—BN-254—Large blooming lavender and pink bicolor.
DOGROSE—BN-255—Beautiful clear pink. A Silver medal winner and one of the best in its color.

RED ORCHID—BN-256—The best red Iris I have ever seen—bar none, and it's early blooming intermediate type. It immediately attracts the attention of all who see it in our fields.

IMPERIAL BLUSH—BN-257—Very large fine soft pink.

WACONDA—BN-258—Rich bronze and red toned Iris.

GREETINGS—BN-259—A new and expensive rosy-red Iris. Perfect shaped on a heavy stalk. Excellent cut flower. Price: 75c each.

FREDA MOHR—BN-271—Famous Iris, just getting down cheap enough so that I can offer it on a regular listing. Illuminous orchid bi-color, standards pale lilac-rose, flaring falls of deep lilac-rose. You can't go wrong on this one.

TENAYA—BN-232—A homely name for such a beauty. Blackish-red to purple. Very branching and low.

BEOWOLF—BN-215—Rich maroon and brown blends. Brilliant and attractive.

EL TOVAR—BN-260—Beautiful combination of bronze upright standard petals and blackish-maroon falls or drooping petals.

WINE GLORY—BN-261—Glorious red-purple mixture. Sparkles like a glass of old Port Wine.

INDIAN CHIEF—BN-217—The always popular. Striking red flowers with standards pinkish-red. Falls deep, rich velvety red. People seem to like this better than any Iris I sell.

FRUIT

Have always maintained that fall is the best time to set out most fruits. Sometimes it isn't the safest, I will admit, although most fruits, like apples and cherries and plums are in no danger. The real advantage is they gain six months' growth. Mound dirt high around plants and pull away in the spring.

Hardy CHERRIES

Montmorency—Favorite of All
THE NEW MONTMORE CHERRY—AN54—Early bearing, greatly improved Montmorency. Easy to pick. Usually only grows 12 ft. high, but about 20 ft. across. Bears a big crop within 3 yrs. Fall Nursery for SOUTHERN GARDENS For Fall Planting SOUTH of Iowa

Here are some of the things I don't usually list in the Fall because they don't do so well here in Iowa and north—except when planted in the Spring. Have had so many letters from people south of here for them in the Fall, where they can and should be Fall planted, that I decided to make a "Southern Gardens" page here in Seed Sense.

If you people north of the Missouri line insist on ordering, I can't help it. But remember, I told you so. All these materials are better planted in the Spring in the North.—H. F.

HENRY FIELD'S NEW HYBRID ELM

Grows 8 to 14 feet Per Year!—It has this habit from the Chinese Elm, but has far outstripped it. Records show they have grown as much as 14 feet in one year.

This Tree Is Only 3 Years Old

Limited Supply—There are no trees available in the United States when our limited supply is exhausted, so I urge you to reserve the trees you want as early as possible.

Has All the Good Points of the American Elm and Chinese Elm—None of the Bad

The Perfect Cross for Shade Trees—No finer cross could be made for a shade tree than to combine the permanence and beauty of the American Elm with the rapid growth of the Chinese Elm.

Resembles American Elm—Its leaves are very large, dark green. The bark is smooth and a medium grey color. The branches are identical to the American Elm—straight and strong. It does not break in a high wind.

100% Hardy—Hot weather, cold weather—it's all the same to this new Hybrid. Not even the tips of the branches were hurt in the Armistice Day freeze in 1940 which took so many of our trees here in Shenandoah. Where ordinary varieties killed out, the Hybrid Elm was not hurt the slightest. And hot or dry, growth doesn't stop.

Your hybrid elms will come to you this year with the tops already trimmed for planting. We find it so necessary to prune the top of this tree when it is transplanted that to insure its being done, we are trimming them here before shipment. This way there is hardly a chance of losing it. The Hybrid Elm is so fast growing that its root system has a hard time keeping up with the growth. This makes trimming absolutely necessary when transplanted.

All About How to Plant in Fall

There's no mystery about fall planting. It's the same as spring planting except the plants must be mulched.

MULCHING: This mulch prevents alternate freezing and thawing which might heave the plants out of the ground. Use a covering of leaves or straw or lawn rakings. Don't use leaves alone as they may mat and smother the plants. Most folks mulch their plants anyway so this is nothing new.

ROSES, SHRUBS, GRAPES, etc.: Mound dirt up to cover tops about 8 to 10 in. deep. Then mulch. Uncover early in the spring when danger of frost is over.

OTHER NURSERY STOCK: Mulch well with straw and leaves or manure. Work manure into the soil next spring.

PRUNING: LEAVE TOPS ON PLANTS THIS WINTER. Prune severely early next spring, before the plants start new growth—not this fall.

That's not hard, is it? And keep in mind, fall planting gives you a head start which almost equals a year over spring planted stuff.

S. S. Rose Bargain

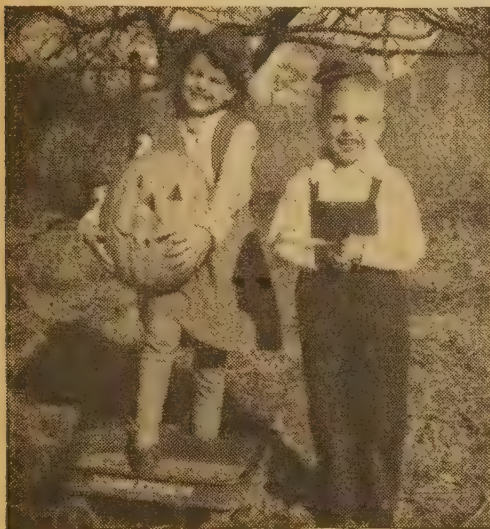

I always like to have a real rose bargain here in Seed Sense and always try to tuck one away somewhere for the benefit of sharp-eyed readers. Always know whether you're reading Seed Sense if you find these bargains. And when it comes to roses, I want all of you to have them so bad that I just can't help making one tremendous offer. Here it is: 1—**TALISMAN**, most beautiful red and yellow, 1—**PINK** and 1—**RED RADIANCE**, favorites in these colors. All 3 roses for \$2.10. AN-438X. Isn't that a bargain?

Another H.F. Wedding

"Dear Mr. Field: Along with our order for seeds I'm sending you our wedding picture. We plan a large garden and lots of flowers. My husband's mother has sent to you for many seeds and shrubs. We would like a rose or peony."—Mr. and Mrs. Glenn Curtis, Rt. 1, Tigerton, Wisconsin.

We are happy to send a nice rose as usual, to the newly married couple and I hope it will help give them a start toward a lovely flower garden.—H. F.

Hallowe'en Time

"Dear Mr. Field: These are my grandchildren, Joe Godsy and Louise Bushears with their Jack-O-Lantern. The apple tree in the background, a Duchess I got from you, is sure grand. Have ordered seeds and nursery from you a long time and will be a customer of yours as long as I can plant a garden."—Mrs. Ernest J. Paxton, Rt. 1, Box 76, Wheatland, Missouri.

Pleased with Everything

"Dear Sir: Have gotten your seeds for two years and are so pleased with everything. Sold plants from your seeds last year and the compliments we received on them assures us of a big sale this year. You send such generous measures. Our grapes, raspberries, chinese elms, etc., are all doing fine. Your popcorn sure has what it takes."—Mrs. Glenn Hefley, 218 N. Welch, Hillsboro, Illinois.

Clean up all old vegetable tops and destroy them. They often harbor insect pests.

Save autumn leaves for the compost. It is a waste of good fertilizer material to burn them.

Growing Fine

"Dear Sir: My shrubs and flowering trees from you were grand. So different from the nursery stock here. They had such nice roots and are growing fine. I also had the finest garden you ever saw."—Mrs. Mildred Cooper, Rt., Coos Bay, Oregon.

Like a Bank of Snow

"Dear Mr. Field: This is my little niece, Betty Jo Storz, age 4, taken on Easter 1946. The Bridal Wreath was like a bank of snow. It is about 6 ft. high and came from your nursery."—Mrs. C. V. Strawn, Asherville, Kansas.

Henry's Mexican Chop Suey

Cook one chicken separate or use equal amount of cold cooked chicken. Cook $\frac{1}{2}$ box spaghetti separately. Take bones out of chicken and cut in small pieces, add spaghetti previously cooked.

Mushrooms (if available)—one small can cut fine.

Onion—one medium size.

Tomatoes—one cup.

Chilli Sauce—three tablespoons—salt, pepper, butter. Place in casserole or other baking dish. Sprinkle some cracker crumbs on top. Bake $\frac{3}{4}$ to 1 hour.

Finest Corn I Ever Raised

"Dear Henry: Well it is corn cutting time and I am proud to say I have the finest crop of corn in this area. I will give the praise to your Hybrid corn. It is the finest corn I ever raised."—Mrs. Mary Johnson, Rt. 1, Ewington, Ohio.

Plant Trees Now Says Dept. of Agriculture

The agriculture department in Washington says that dust storms are on the way. We'll have them sooner or later if we don't do something about it. And tree planting must be done BEFORE the storms start, not after. Too much sod has been plowed. Too few soil conservation practices have been made.

Best in 59 Years

"Dear Mr. Field: We ordered seven grape vines from you and I am 59 and never before saw roots like on your vines."—Mrs. M. I. Fay, Rt. 4, Edina, Missouri.

Does She Like Watermelon!!

Mrs. Steve Payoo, Rt. 3, Berryville, Arkansas, sends in this picture of her little 14 mos. old daughter Susan Carrol. Mrs. Payoo says, "Don't say she doesn't like your watermelons." Yes it looks like Susan was a lot more interested in that piece of melon than in having her picture taken.

H. F. Chicks Best Layers

"Dear Mr. Field: Ordered 200 chickens from you last year and only lost 2. They are the best laying hens we have ever raised."—D. B. Thompson, 819 N. Mulberry, Abilene, Kansas.

Peat moss is a fine mulch for late planted perennials, shedding moisture well, and preventing heaving from thawing and freezing.

An Easter Lily That Blooms Outdoors

I've been wanting to offer you a hardy Easter Lily for 50 years. It's something we all want in our gardens. And here it is. A beauty as delicate and wonderful as any grown in a greenhouse. And you can have it right in your own backyard. Plant it this fall and you'll have blooms year in and year out. It grows $2\frac{1}{2}$ to 3 ft. tall. Just like what you pay \$3 to \$5 for at the florists. You can see from the picture how free-flowering it is.

Some of the boys in the seedhouse wanted me to get a big price for it. And most people would have paid it, too. After all, you don't find something so unusual everyday! But I'm pricing it right in line with any of my other lilies. This way we can all afford to have it. BAN-11—Price is 59c each; 2 for \$1.00; 5 for \$2.29, postpaid. And you'll thank me for bringing it to you.

Picking Grandpa's Apples

"Dear Mr. Field: I am sending you a picture of our granddaughter, Carol Cline, age 1 yr., trying to pick an apple from one of the trees we purchased from you. It is an Anoka and we picked a box and a half from the tree planted three yrs. ago."—F. L. Cline, Box 253, Prairie City, Oregon.

Anybody Can Grow These

Best perennial offer I ever made was on the envelope of my catalog last spring. You'll remember it. I called it my "GREEN THUMB" Collection, because it was made up of hardy perennials that never fail. All you have to do is plant them, almost anywhere, and they'll grow for you and bloom and bloom. Here's what I offered: 1 Hardy Carnation (like a greenhouse flower), 1 Long Spurred Columbine, 1 Tall, Stately Delphinium, 1 easy-to-grow Pink Cushion Mum, and 1 Rosy Vell Baby's Breath. Am offering them again this fall. All five plants—big healthy ones, too—for only \$1.00 postpaid. Send for No. BN-430X.

Fall Best Time to Plant Lawns

Mid-August through September is now considered the best time of year to plant a new lawn or remake bare spots in old lawns. The one great advantage of fall lawn planting is that seed can be germinated at a period when weed seeds lie dormant. The cool nights and ample moisture of fall gives the lawn a chance to get well started. By spring of the following year, the lawn will be so heavy that weeds will find it impossible to grow.

Follow the following three easy steps to making a perfect lawn: (1) Spade deeply to a depth of 6 ins. and thoroughly pulverize the soil. (2) Apply a good commercial plant food at the rate of 4 lbs. per 100 sq. ft., or sheepolizer at the rate of 8 lbs. per 100 sq. ft. (3) Use only a good lawn seed mixture. We recommend our Evergreen Lawn Mixture made up mostly of high germinating Kentucky Bluegrass with a little White Dutch clover, plus a small amount of Rye Grass and Red Top as a nurse crop. Do not plant a lawn mixture containing Timothy. It is not a permanent lawn grass mixture. Plant 1 lb. of seed to each 200 sq. ft. of lawn for a new lawn. Reseed an old lawn at the rate of 1 lb. to each 400 sq. ft. Always roll a new lawn.

The Latest in Peonies

Peonies have been scarce for the last 2 yrs. Haven't had enough to go around. This year I think I've got enough, but more than that, I've some new varieties that you've been looking for. They are really beauties. Read the descriptions for yourself.

Lots of Corn—Not All Stalks

"Dear Sir: Received my seed corn and it's as fine a seed as I ever looked at. Hope my crop will be as good as last year. I cannot praise Field seed enough. I tell my friends to plant your corn if they want corn and not stalks."—James Johnson, P.O. Box 112, Atco, New Jersey.

New LOW Prices

Want all of you to take a special look at my Bluegrass and Lawn Seed prices on page 23. Some of them are 50% below last spring. Harvested my own seed this year and can pass on this savings to you, as I always try to do. No better seed ANYWHERE. This is THE BEST.—H. F.

My Nursery Guarantee

My nursery stock is all state inspected, of the heaviest quality, free from disease, and first-class in every way or I don't send it out. That's why I can guarantee it. I also guarantee my stock to be absolutely true to name. If it proves otherwise, you can have your choice of replacement free or a full refund on the entire purchase price.

If you are not pleased in every way with my nursery stock when you receive it, return it promptly at my expense and I will replace it at once or refund your money, as you prefer. I guarantee it to reach you in first-class live, growing condition. After you have planted it, if it fails to grow, I think we ought to divide up on the blame. I'll take one-half and you and the weather take the other, and I'll replace at half price anything unsatisfactory through any fault of the stock. Fair enough?

A Satisfied Customer

"Dear Mr. Field: I have really had some good luck with your corn. It really yields. This shows myself in the field. This particular part of the field made 80 bu. per acre. A very satisfied customer."—Donald L. Page, Rt. 1, Slater, Missouri.

A Real Harvest From H.F. Seeds

"Dear Mr. Field: I cannot say enough for your garden seeds. I ordered \$1.60 worth of your seed last year and raised enough for myself and 3 children that are married and live in the city. The four of us canned over 800 qts. and I sold \$20.00 worth of vegetables and also gave some away. Am enclosing a picture of myself in my okra and garden."—Mrs. George Mize, Rt. 6, Cullman, Alabama.

Why Fall Planting Is Best

Fall planting is every year becoming more popular and most as popular as spring planting. Now experiment stations all over the country are recommending planting in the fall, more and more folks are setting out what they want at BOTH seasons of the year. Fall has these advantages over spring planting.

1. Plants have 6 months' head start to become established. **THE ROOTS WILL GROW ALL SIX MONTHS.**

2. Fall planted stock gets well established to stand the first hot, dry summer and have better chances of living through.

3. Fall planted plants **BLOOM THE FIRST SPRING**, where some wouldn't if planted in the spring.

4. Usually, most folks are busy in the spring and don't get time to set stuff in their gardens that they should. In the fall, mostly they have the time.

Now, if those reasons don't make a believer, of you, all I ask you to do it try a few plants this fall and see how much success you have.—H. F.

**WHY I'M 100%
For UNITED Hybrid**

**by
Henry Field**

This United hybrid makes good common sense. I'm for it and I'll tell you why. Most of you know I've been producing hybrids for over 30 years. In that time I've learned a good bit about hybrids and developed some of the most valuable inbreds in the hybrid world. But one man can't have ALL the BEST ones and I know that. But by combining the best ones you have with many other hybrid producers and using some of theirs that might be best in their line, you can get an ALMOST PERFECT HYBRID.

And that's just what United has done. And the corn is good—much better than anyone could have produced alone. I'm 100% for UNITED and am proud my inbreds played a part in the program. I know you're going to be 100% for UNITED too.

CORN BOOK**

I want all you farmers to have a copy of the new United Hybrid corn book. And it's free. All you have to do is ask for it when you send in your nursery order, or drop me a card and say "Send the corn book."

This is one of the most beautiful books on corn you ever saw. All in full color. Shows you the corn you should have, just like it will grow for you. Nothing like it anywhere. Send for your free copy today.

Brome-Alfalfa Pasture

A wonderful combination—15 lbs. Brome and 4 to 5 lbs. per acre of alfalfa along with it. This makes the best quality hay. It is just the right combination. In addition, Brome-Alfalfa mixture will make good pasture without danger of bloating and furnish green feed for calves even in the late fall and winter when it is not covered by snow.

Northern Alfalfa Seed for Early Orders

It is the first time in four years we have had any hardy plump northern grown Alfalfa seed available for August and September planting. All perfectly hardy bright clean plump berries.

For the wise farmer who gets his order in early you can have your choice of any of the lots listed, including Dakota No. 12, Grimm and Cossack varieties. Check our price list now and get your order in right away, and be sure to include inoculation to mix with your seed before planting.

We do not handle Argentine or southern-grown seed which we feel is no good.

Practice Crop Rotation

I believe one of the best disease control practices that you could follow, both in the field and garden, is crop rotation. It is true that many other practices may be important and should be followed too, with various individual diseases of crops, but crop rotation is important for nearly all cases. With corn for example, rotation is about the only means of reducing losses from root rot, stalk rot and ear rot, and with the experiences of corn root worm over a wide area the past two years in the main Corn Belt, crop rotation is even more important than ever in figuring next year's planting acres.

And the same thing is true in the garden. Crop rotation may mean the difference between a crop of tomatoes or failure to obtain a crop. The leaf spot which bothers tomatoes and for several years has been proven to be greatly reduced by putting the plants in a new location each year. In fact, it is a good plan to rotate your entire garden spot from year to year and it will pay you off in big dividends every time.

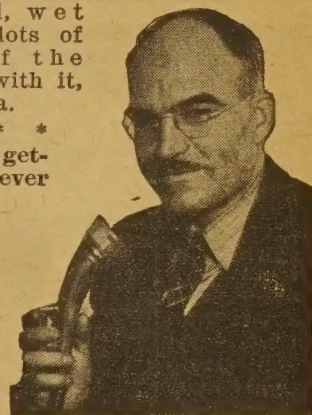

One good thing about crop rotation, it doesn't cost you much, it's inexpensive, it's easy to follow.

"ALFALFA" JOHN SAYS....

The cold, wet spring kept lots of oats out of the ground, and with it, a lot of Alfalfa.

Have been getting letters ever since on what to do to make up this needed legume acreage.

Best way, of course, is to sow alfalfa in August or early September.

"Alfalfa" John Nicolson

With the late season, new crop seed will not be available in time, but we have some fine lots of 1946 seed including Dakota 12, Nebraska, Grimm and Cossack.

If you've had trouble with wilt, you should try a few lbs. of Ranger Alfalfa, the new selection made by the University of Nebraska with the USDA. This hardy strain is recommended for the Midwest and East where wilt damage has been heavy.

Have less than 500 lbs. Can sell at 5 lbs. for \$6.95.

On account of floods, bugs, weeds and one thing or another, pastures are looking spotty. Fall is a good time to remedy with our pasture mixture.

Here's a special price on our Good But Cheap Pasture Mixture. \$7.95 a bu. This is made up of 4 legumes & 4 grasses. Can't beat it.

For those low, wet spots, plant Reed Canary Grass. Sow 6 to 8 lbs. to the acre in the Fall.

You can't beat fall planted Brome. Sow alone or with alfalfa. Have three fine lots for you.

Short oat crop means there won't be enough Clinton Oats to go around. Have both certified and uncertified at real prices. But don't put off ordering. We can't possibly guarantee delivery for long.

Want every one of you to write for the new UNITED HYBRID corn book. You'll want to read how growers all over the corn belt got together to produce the best possible hybrid. You'll want to see pictures of the corn itself, too. Just drop a penny card in the mail and say "Send the UNITED corn book."

We harvested our own Bluegrass this year again. One of the best crops, too. Fine seed. Plump, heavy. The kind that will really go to work for you. And prices are way down. As much as 50% in some cases. If you want Bluegrass or lawn mixes, you can't beat Henry Fields quality and price this year.

"Alfalfa" John

Be Sure of Yours — Order Clinton Oats Now

Here is the good news you have been waiting for. New crop 1947 grown Certified Clinton Oats are available now. I know you have been waiting for that news for several years and we are glad to say that right here at Henry Field's we are the first to offer them to anybody who wants to buy them—in any quantity. No restriction—the lid is off as far as we are concerned.

Clinton is a variety of oats that promises to turn poor oat years into good ones. Clinton has outyielded all other name varieties since its introduction. It has the stiffest straw and weighs out better than any other variety test under Iowa growing conditions where it originated at the Iowa State College. Clinton is a medium tall yellow early oat, kernels are plump, the hulls are thin. In community trials in the state Clinton outyielded old varieties like Tama, Boone and Marion by an average of 14 bushels per acre. Clinton will stand up under rich soil conditions. It is not a hybrid but a new variety that comes from hybrid origin.

Clinton Oats have high disease resistance to stem rust and crown rust, also are highly resistant to smut, halo blight and the new helminthosporium blight that caused such high yield losses with old fashioned oat varieties that were not resistant the past two years.

You will be sure to like the Clinton variety because of its higher yielding ability, stiffer straw than any other variety available and higher test weight because of plump kernels and thin hulls. It is going to be a real boom to every farmer in the entire Corn Belt.

We are glad to say that we bought Clinton Oats early, all eligible for certification to be completed early this fall and priced right. We are not asking wild prices like \$12, \$14 and \$15 per bushel that you heard a year ago, but are putting the price in line so that every farmer can raise Clinton Oats next year if the limited seed supply lasts long enough.

Keep in mind there was a big reduction in oat acres here in Iowa this year because of the late wet cold spring, keeping many of the acres from being planted. There won't be near enough Clinton Oats to go around—we know that now.

Here's the deal. Our price is only \$3.25 in 3 bu. lots; \$2.95 in 6 to 12 bu. lots; and only \$2.90 in 24 bu. or over lots. \$1 less for uncertified. All oats sacked and sold in 3 bu. bags only. Prices F.O.B. Iowa shipping point.

Use Pasture Mix for Fall

Can't say too much for this dandy fall "Good But Cheap" Pasture Mixture. I offered it last fall for the first time for fall planting and it caught on like wild-fire. The best combinations of grasses and clovers for fall planting results are included in this mixture. Kentucky Blue, Red Top, Rye Grass, Timothy, etc. in the grasses, and in the clovers—Red Clover, Alfalfa, etc. All mixed in just the right proportion to give lots of feed pasture on all types of soil. Seed a bushel to every 3 or 4 acres. Plant any time from the middle of August to September, or plant it late fall just before the ground freezes. It is far cheaper to use this special mixture than to buy grasses and clovers separately and mix them yourself.

Best Corn in the Country

"Dear Mr. Field: Wish you could see our corn. Bought your Hybrid seed corn last spring and have 11 acres of the best corn around this part of the country."—Mr. & Mrs. George Barton, Rt. 2, Box 71, Marshfield, Missouri.

Reed Canary Grass for Fall

The months of August and September are ideal for fall planting of Reed Canary Grass. Couldn't recommend anything better for you for waterway plantings along ditches and swales in contour plantings. Best, too, for wet low spots in pastures.

Iowa State and other colleges agree that Reed Canary is a good grass on upland soil as well as the low lying spots. Plant plenty of it. It is a perennial. It will last for years after it becomes established and makes fine pasture or hay, either one, besides holding weeds in check which is very important.

All of our Reed Canary seed is bright clean new crop from northern Minnesota from extra hardy fields, good germination and ready to grow for you. Plant 5 to 6 pounds per acre. If you want to, add a few pounds of Timothy and a pound or two of Alsike per acre along with your Reed Canary planting.

Brome Grass Leads the Parade for Fall Planting

Ten times as much Brome is fall planted from early August through October as in the spring of the year, or if you prefer, plant it just before the ground freezes in the fall and this late planted Brome will be up early—way before you can work the ground in the spring.

Smooth Brome acreage has been growing by leaps and bounds because of its high value as a livestock feed, for hay, as a pasture, as a seed crop, and to check soil erosion. The tough fibrous roots can take lots of punishment and still turn out tons of high quality feed per acre. As a planting for cultivated slopes, buffer strips, headlands and roadside planting it has no equal. Not only that, but by planting this long lived perennial grass you can have pasture over a period of 8 months in spring, early summer and late fall.

It is a proven fact that Brome will carry more livestock through a longer grazing period than any other grass and all kinds of livestock like it. Figure 20 lbs. per acre, and have a smooth firm seed bed the same as you would use for alfalfa. Roll in to cover and then cross roll again if possible. Planting depth $\frac{1}{4}$ to $\frac{1}{2}$ in. deep is best.

Having a Good Time

"Dear Mr. Field: This is my first order to you and I am enclosing a picture of my son, Ronald, having a good time with the little pigs. Do hope to see this in Seed Sense."—Ronald D. Moody, Rt. 3, Box 205, Kingsport, Tennessee.

Where Do Baby Boys Come From?

One day little Robert, who was as curious as five-year-olds can be, crawled up in his father's lap, and asked where one got baby boys. Father was very thoughtful for a few minutes then hastened to explain that one planted a seed then waited a few months while God watched over it and cared for it. Soon it commenced to grow and that was where one got baby boys and girls. Seemingly satisfied with this explanation, Robert went on playing with his toys.

A few days later, his mother overheard a conversation between Robert and the little boy next door from which she learned that Robert had planted a seed on the edge of the garden, placed a tomato can over it, and was now going to see what it had produced. Being careful that he should not see her, she followed to see what would happen. Eagerly he went to the edge of the garden, raised the tomato can, and behold! There sat a big frog. Robert gazed at it disgustingly for a few minutes, then exclaimed, "Gee! if I wasn't your father, I'd kill you!"

Mrs. Florence Hulbert

Merrill, Michigan

5 Ft. Gladiolus!!!

"Dear Sir: I wish you could have seen my gladiolus I purchased from you last year. I had the most beautiful ones I have ever had. One, a violet-blue, was over 5 ft. high and blooms all the way up. All my friends wanted to know where I got it."—Mrs. Jeff Beamer, Rt. 3, Box 196, Galax, Virginia.

And I thought we bragged about tall corn in Iowa!!—H.F.

Some Beautiful Dahlias

"Dear Mr. Field: I am sending you a picture of myself taken in my Dahlia bed. They were really beautiful and some of them measured 10 inches across. I am 78 yrs. old."—Mrs. Minnie Shepperd, Howard Lake, Minnesota.

How I Ship to You

Every year there are a few customers who write in wondering when their order is going to come. Probably you received part of your order and just think we have forgotten the rest of it. We haven't.

Sometimes, of course, we make mistakes, but not often. What happens is that the order is split up according to when the nursery should be planted. Take a fall order, for instance. Let's say the order called for Iris, Tulips, Oriental Poppies, and some flowering shrubs and trees. We'd divide such an order up into three different shipping dates. We'd mail the Oriental Poppies and Iris in August, the Tulips in late September or October and the trees and shrubs in late October or even November, depending on the season when stock was in best condition for you. So don't worry about your order if everything doesn't come in one package. Look over the papers in the order carefully. They'll tell you about it. And anyway, you can depend on Henry Field to send good stock, on time, and at a fair price.

New Radio Hymnals

The new edition of the Radio Hymnal is now being printed and should be ready for you by the time we receive your orders. It will contain the same songs and same make-up generally as the old Radio Hymnal. The new one will be printed on English-Finnish type of paper making the book about ¼ inch thicker. The book will also be about ½ inch larger each way. Price: No. 4034, Cloth bound, \$1.25 each or 90c each in lots of 25 or more. No. 4035, Manila bound, 85c each or 75c each in lots of 25 or more. All postpaid.

Grow Like Trees

"Dear Henry: My Ozark everbearing blackberries grow like trees and have such big clusters of berries."—O. F. Meyer, Box 155, Pomona, Kansas.

Don't Delay Planting

The nursery stock I send out to you is getting better every year. It is all vigorous, healthy stock and will really grow for you. Of course, it's still perishable and must be taken care of immediately upon its arrival. If possible, plant it in its permanent location as soon as you receive it. If the weather is bad, or if for some other reason you can't plant it at once, heel it in the ground.

Plenty of Everything

"Dear Sir: My mother always planted your seeds with good success; and we have also used your seeds since our marriage and always have a fine garden and plenty of everything. I raised peppers so large they wouldn't go in a half-gal. pail. Here is a picture of our 5-yr.-old twin sons, Walter and William."—Mrs. P. A. Critchlow, Newman, Kansas.

Peonies by Colors

Lots of folks like red peonies, but don't much care what variety it is. Same goes for pinks and whites. This is a good thing, because at peony harvesting time, I always have some mixtures of fine peonies that I can offer at a really low price. These peonies are just as good as any of my expensive varieties, but they're not labelled, except for color. All I can tell you is their color. Red BN-313; Pink BN-314; White BN-315. All big double varieties. 55c each; 3 for \$1.49 postpaid. And this price is cheaper than most wholesale prices.

First-Class Satisfaction

"Dear Sir: We certainly do appreciate the quality of all merchandise we get from Henry Field's. Both your seed and nursery stock give first-class satisfaction. Last year we had a head of cabbage that measured 39 inches in circumference on July 4th."—Mr. & Mrs. John Cima, 112 N. Division St., Madrid, Iowa.

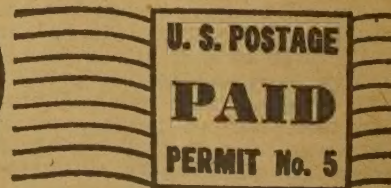

How to Get Seed Sense

Have lots of letters every season asking, "Where's my copy of Seed Sense." Have to write back and say that Seed Sense is sent regularly only to H. F. customers. Some people don't order every year, as they should, so they miss copies. If you order, you get every copy sent out.
